

Characterization Flow I

Automated Memory Characterization

Stimulus & Measures are automatically generated By CharFlo-Memory!

CharFlo-Memory!™ Modules

Memory Characterization

- ◆ MSL™ :

MemChar SpiceCut Library, the programmable automation manager for memory characterization

- ◆ SpiceCut™ :

Critical-path circuit building tool with built-in RC reduction

- ◆ MemChar™ :

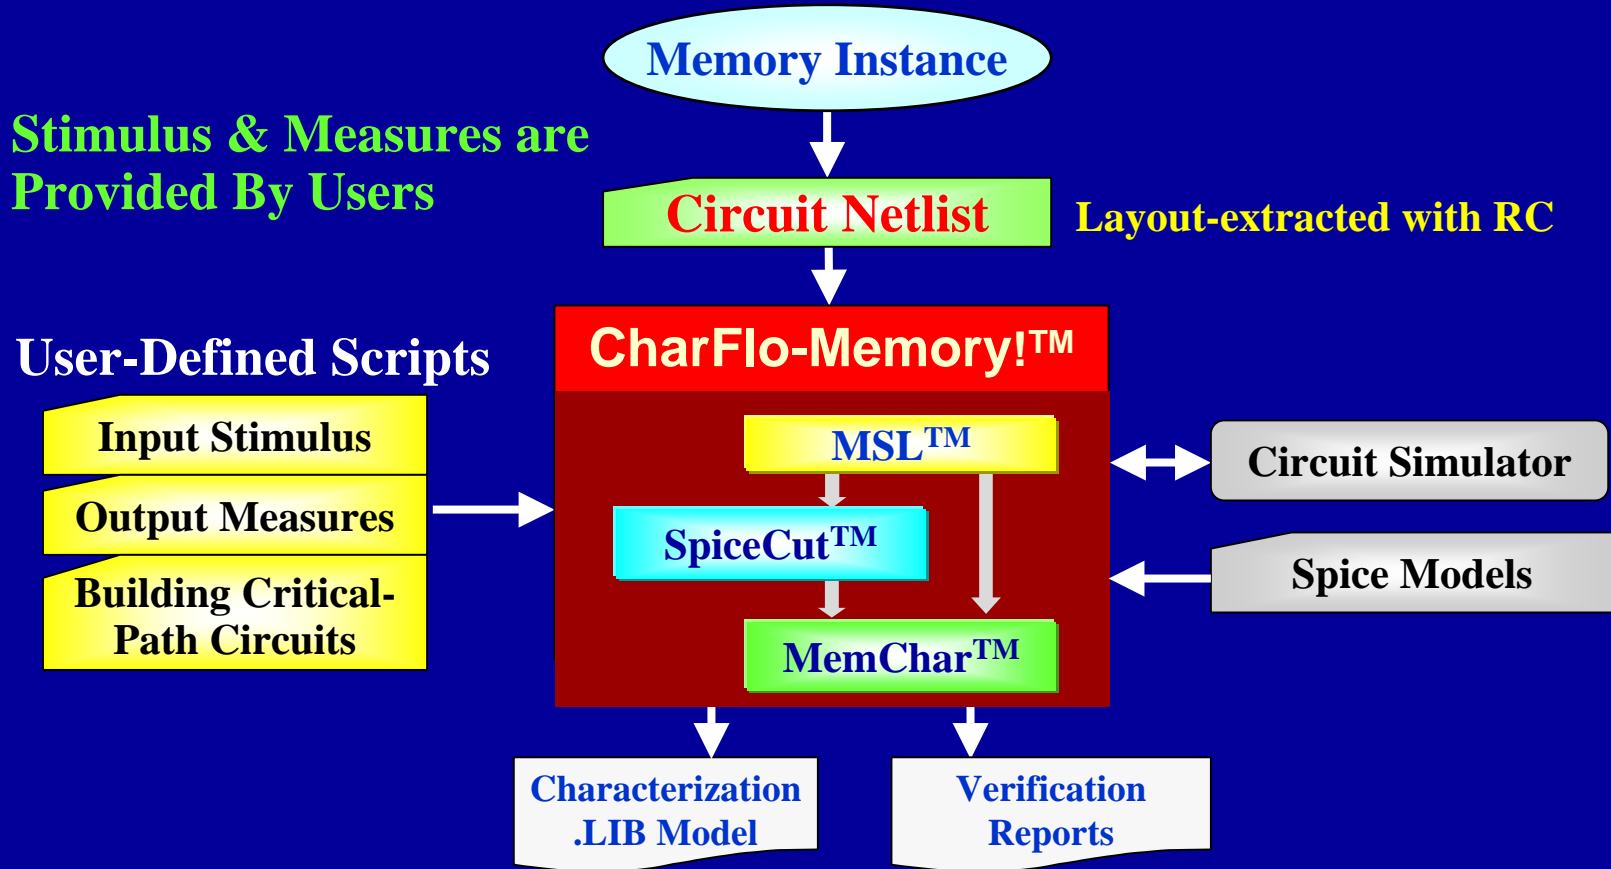

Memory characterization engine with optimization.

- ◆ Circuit Simulator:

High-accuracy circuit simulator, such as MSIM®

Characterization Flow II

Customized Memory Characterization

Characterization Flow III

Customer's Own Flow with SpiceCut
